

May 2009

Paid summer internship in a research project in Berlin

The "German Airport Performance" research project is looking for international students who are interested in completing an internship during the summer of 2009.

The **German Airport Performance** (GAP) project is a joint research study between different German universities (University of Applied Sciences Bremen, Berlin School of Economics and Law and the International University of Applied Sciences).

The project is funded by the federal ministry and dedicated students in their undergraduate and postgraduate studies are currently working for the project.

The goal of the project is to study changes in the institutional structure and performance of airports, the effect of commercialization and the competitive environment on them, and to consider future requirements with regards to financial and ecological regulation.

The project is divided into different teams

1. Team Financial Performance & Benchmarking
2. Team Charges & Airline-Airport Relation
3. Team Ground Handling /Bodenverkehrsdienste
4. Team Non Aviation

You can join any team who's topic you are most interested in.

If have completed the first years of your Business/Economics/Management undergraduate programme or you are a postgraduate student who is looking for some international working and research experience, take your chance and apply for a summer internship.

You should be reliable, open minded, ambitious, interested in the airport industry and have a few weeks/months time during the summer.

German is not required for working in the project as most of the staff is international but your English should be fluent.

The internship is paid and help is provided for finding a housing during the time of your stay.

For more information on the project please visit www.gap-projekt.de

Please send your motivation letter, CV and university grades to:
