Annex no. 1 to Resolution no. 261 of the Senate of the SGH Warsaw School of Economics of 18 January 2023

The curriculum at the Doctoral School at the SGH Warsaw School of Economics for the discipline of Economics and Finance in the scope of *economics* as of the academic year 2021/2022

1. General characteristics of education

Education at the Doctoral School at the SGH Warsaw School of Economics lasts 8 semesters and prepares to obtain the degree of a doctor in the discipline of Economics and Finance. The main subject of education and scientific research is economics. The education covers implementation of the curriculum and the Individual Research Plan and leads to the achievement of learning effects for the qualification at the 8th level of the Polish Qualification Framework.

2. Learning effects (knowledge, skills and social competences)

Learning effect symbol	Graduate of the curriculum at the Doctoral School at the SGH Warsaw School of Economics in the scope of economics with the degree of a doctor:	Reference to characteristics of the Polish Qualification Framework, 8 th level – code of the description component ¹
	KNOWLEDGE: knows and understands	
W_1	W_1 global achievements including theoretical basics and general subject matters related to the discipline of economics and finance	
W_2	W_2 global achievements including selected specific subject matters relevant for economics to the extend allowing revision of existing paradigms	
W_3	W_3 main development trends in scientific disciplines in which education is provided at the Doctoral School	
W_4 general methodology of social sciences including the methodology of scientific research relevant for economics		P8S_WG
W_5 rules of popularising results of the scientific activity, also in the mode of open access and basic rules of transferring knowledge to the economic and social		P8S_WG P8S_WK

¹ Regulation of the Minister of Science and Higher Education of 14 November 2018 on characteristics of the second cycle degree learning effects for qualifications at the 6th – 8th levels of the Polish Qualification Framework (PRK) (Journal of Laws of 2018, item 2218).

	sphere, including basic rules of commercialising results of	
1	the scientific activity and know-how related to such results	
	economic, legal and ethical conditions of conducted scientific activity	P8S_WK
N_7 1	fundamental dilemmas of contemporary civilisation	P8S_WK
,	SKILLS: can	
	use knowledge from various scientific disciplines to creatively identify, formulate and innovatively resolve complex issues or perform research tasks and, in particular:	P8S_UW
	 define the objective and subject of scientific research, formulate research hypotheses, 	
	 creatively use and develop scientific methods, techniques and tools relevant for conducted research, 	
	 draw conclusions on the grounds of results of scientific research 	
3	conduct critical analysis and assessment of results of the scientific research, expert activities and other creative work, and their contribution to the development of knowledge in the area of conducted research	P8S_UW
-	popularise results of scientific activity or transfer them to the economic and social sphere	P8S_UW P8S_UW
U_4 communicate in specialist topics, also in a modern foreign language at least at B2 level of the Common European Framework of Reference for Languages with specialists in their scientific and professional discipline, as well as with persons outside these environments		P8S_UK
U_5 document and present results of research and prepare publications of scientific character – in compliance with the rules of producing this kind of compilations – with a respect for the rules of intellectual property protection		P8S_UK
U_6	participate in the scientific discourse	P8S_UK
U_7 i	initiate a debate	P8S_UK
	plan and perform individual and group research projects, also in the international environment	P8S_UO
6	independently plan and act to the benefit of own scientific and professional development, as well as inspire and organise development of other persons	P8S_UU

6.	Scientific seminar	0	2.5/0.5/ semester	20/4 per a semester
5.	Philosophy of science	0	3	10
4.	Ethics in science	0	2	6
3.	Research methodology workshop	0	3	30
2.	Research workshop	0	0.5	6

_

² Major subjects prepare for two major exams (see: subpar. 5 and the Rules and Regulations of the Doctoral School).

³ The same subject in the curriculum for the discipline of economics and finance in the scope of <u>finance</u>.

⁴ The same subject in the curriculum for the discipline of economics and finance in the scope of finance.

⁵ The same subject in the curriculum for the discipline of economics and finance in the scope of finance.

⁶ The same subject in the curriculum for the discipline of economics and finance in the scope of finance.

The Individual Research Plan	0	
------------------------------	---	--

4. "Implementation doctorate" profile

In the "implementation doctorate" profile, in the subject area B all subjects have 42 hours each, in the subject area C all subjects have 32 hours each, and in the subject area D all subjects have 21 hours each.

5. Major exams

The doctoral student is obliged to pass two major exams in the 4^{th} semester: *Macroeconomics and Microeconomics*. These exams are not included in the settlement of the doctoral student's requirements within an academic year. Major subjects prepare for major exams. The scope and forms of major exams are specified in the major exams cards.
