Q&A and FAQ Session (1)

What are the most important dates concerning the CEMS Selection?

14 October - 7 November 2022.

What are the steps in recruitment?

Application online, Assessment, Interview.

There are several selection criteria some are entry level i.e. English language but there are additional ones as well i.e. GPA, second language knowledge, student activity. When best to start preparing for CEMS recruitment?

The sooner, the better.

What to do if my English Test score is just below minimum (e.g. TOEFL iBT 99 points)?

First of all, take the test now. If you fail you may re-take it or take another test. If you take it just before application period, you may not manage to get the re-take test result before deadline.

Q&A and FAQ Session (2)

How and where candidates may submit their applications?

Online via SGH (MS Form) and CEMS systems (both necessary).

Is there a need to submit any documents in paper?

No.

Where the results of selection can be found?

They will be emailed regularly to your SGH mail address.

When are candidates scheduled for assessment and interview?

After closing the application period, all students will be asked to participate in the selection survey – preference form.

What to do to confirm your participation in CEMS MIM?

You have to submit online confirmation form.

Q&A and FAQ Session (3)

Can I choose dates of my assessment/interview?

Partially yes, by submitting a duly completed preference form.

Will recruitment process be conducted online or offline this autumn?

The application period is fully online, while the interview and assessment may be organised face-to face.

How long candidates need to wait for the results of every stage?

Usually 4 days after completing each stage.

What if I resign from the recruitment process at some point?

You will continue your studies at SGH.

Can I change my school selection after the online application period?

Yes, you can, but only in justified cases (by the time the initial results after the 1st stage are published) or if you wish to delete any school(s) from the list.

Q&A and FAQ Session (4)

What was the point threshold in the previous years?

63 points – the required minimum. Last year there was a Rector's consent to admit a student with a lower score due to small number of candidates.

How many students get admitted every year on average?

It varies. Theoretically we may admit about 60 students. We offer about 50 spots and the average intake is around 40 students. Last year it was 23 students, but the number of candidates was very low.
