### Registrations in USOSweb – Registration with Teacher's Permission – Graduate Studies

#### General information

To access the USOSweb registrations you need to log in to <a href="https://usosweb.sgh.waw.pl/">https://usosweb.sgh.waw.pl/</a>

NOTE: Do not use auto translation (e.g.: provided by the web browser), please switch the languages using the flag visible in the upper right corner.

Then you need to go to the STUDENT'S SECTION tab, where all registration activities take place.

Depending on the specifics of a given round, the following are used:

- **Calendar** from which you go to registration round, either for classes or for seminars; (calendar shows all available registrations for a given student).
- **Cart** shows courses for which the student is currently enrolled.
- **Schedule** in addition to the current student's timetable, it shows the changes introduced on an ongoing basis in courses during registration.

Registration for courses:

#### **Registration with Teacher's Permission**

This round is open to all students, including those who have not taken part in earlier rounds.

This is the last round in registrations, i.e., the last opportunity to register for the classes of our choice.

During this round, all running courses are available, but some places in groups are filled in, and some groups have no more vacancies.

In this round You have two options:

- 1. You can sign up for class groups where are places available to fill **the upper limit**. The choice should be considered carefully, because **you can no** longer **de register from class chosen in this way.**
- You can also <u>request admission</u> to classes in which the limit is already filled or exceeded. Whether you will be admitted to such a group depends on the decision of the professor. <u>Until the teacher</u> <u>decides to admit you, you can resign</u> and withdraw your request.
   After a positive decision of the educator, you cannot give up the subject.

NOTE - You cannot de-register from classes that we have already entered in the basket at the beginning of the turn.

In this round you use the Callendar, the Cart and Schedule:

At the beginning it is worth checking what you are already registered for. Courses that will be binding for you are visible in **the Cart.**

#### Filters

It is worth using the available filters when looking for courses you are interested in:

SEARCH FILTERS
Show courses in English German
Show basic courses
Show major courses
Show major elective courses
□ Show mandatory courses for the next semester
Show free choice courses
□ Show courses dedicated to my study programme
Search according to a course code:
Search according to a course title:
Show only these courses which I am able to register for 🔢
Apply

If you are looking for a course and we know its course code or part of it or at least part of its name, then you can search or it:

- 1. searching by the code enter a maximum of 6 digits (do not enter 4 digits after the dash) or the first digits of the course code then we will see all the items that begin with the numbers entered.
- 2. When searching by the name, we can enter only part of it then we will see all the courses that have the phrase entered by us in their name.

Show courses dedicated to my s	tudy programme
Search according to a course code:	
Search according to a course title:	

In the same way, you can search for courses for your Major, but it is easier to search for them using filters, because then you will get a list of every course regardless of the code and name.

When using filters, pay attention to the fact that some of the filters may give us an empty result.

Search according to a course code:
Search according to a course title:
Show only these courses which I am able to register for 👔
Apply

The list of courses is empty

It all depends on which Major and semester you are in and how the requirements are entered into your study plan.

If courses from a given collection have already been passed by you, you will receive an empty list.

However, if there are courses in the list that you have not yet completed or have not passed, the filter will show them.

The **filter Show only courses needed for the next semester** will show us all the courses that are needed for the semester for which you register for classes, and which are assigned in your study plan for this semester (name and code)

If this semester there are no specific subjects in the requirements (in study Plan), and in the study plan there is only the language course/seminar and the required number of ECTS credits, this filter will not show us anything.

#### NOTE: STUCENTS REGISTERING FOR CLASSES ON THEIR LAST SEMETER

In the case of the last semester, the timetable does not include specific courses, but because this is the last semester in which you are obliged to complete all previously uncredited major subjects and obtain 15 ECTS/20 ECTS points in Major Electives, selecting this filter will show you all previously passed Major and Major Elective courses.

In the last semester, in the case of major courses, it will be simpler to use the filter:

#### Registering for a class or requesting admission over the limit

Whether there are places in chosen class can be checked by clicking on the icon at the shopping cart:

If the maximum limit of students in the course group has already been filled in or exceeded, you can request admission for the course.

The system will allow you to send a request without filling in the **Comment for the Lecturer**, but it is worth filling it out and entering information why you want or need to complete the course.
