

Appendix no. 2
Submission form
Student and PhD Student Participatory Budget
Edition 2024 – “Ecological innovations”

Project title: Water boiler Building C

Applicant(s): Thu Huyen Do

Why is the project important? (no more than 100 words)

Students could rely on the hot water every day and buy less drinks in plastic bottles or other one time use cups and lids. This would also promote healthier lifestyles, as many drinks in plastic bottles have sugar and sweeteners and for example tea does not.

Project description (no more than 250 words)

It would only require to buy a water machine and put in building C, I know I would love this and so would the next generation of students

Simplified cost estimate

Around 3000 zł, but it can be any other type of machine.
