

POSTGRADUATE STUDIES IN ECONOMIC DIPLOMACY

The Postgraduate Studies offer students the opportunity to explore the economic dimensions of contemporary diplomacy and learn how to pragmatically apply theoretical aspects to real world issues.

ARE THEY FOR ME?

Postgraduate Studies in Economic Diplomacy are addressed, among others, to:

- individuals interested in the economic and commercial diplomacy career path,
- employees of institutions with broad international economic relations,
- individuals focused on a career in international organizations,
- employees of companies aimed at establishing and deepening international cooperation,
- employees of transnational corporations, NGO representatives.

COMPREHENSIVE SKILLS
- useful combination of theory with skill-training modules

EXPERIENCED LECTURERS
- courses are delivered by academics and professional economic diplomats

ADDITIONAL BENEFITS
- the courses are offered entirely in English

WHY STUDY?

- Graduates will be equipped to represent and defend country's economic and commercial interests and to detect business opportunities and lobby at the international level.
- Graduates» command of the tools used in economic diplomacy will help them develop comprehensive market analyses, negotiate international agreements and operate successfully in the international environment.
- Graduates will understand the cause and effect relationships in international economic policy.
- Completing the programme will expand the scope of potential career paths.
