

POSTGRADUATE STUDIES IN ESG FUNDAMENTALS FOR BUSINESS

The Postgraduate Studies discover all nuances of ESG and its importance for your sector and company, apply reporting tools to analyze ESG indicators.

ARE THEY FOR ME?

- Your company, just like any other, will face the necessity of ESG reporting either directly or indirectly as a part of larger value chain.
- 500,000 new ESG related jobs are expected this decade – don't miss on this opportunity!
- ESG careers are opening in risk management, strategic planning, policy analysis, social impact, and business innovation – it's a must for any developing business.
- ESG management is essential for employees who invest in building the ESG capacity of key management and staff.
- With the European Green Deal and its implementation, each company should be prepared to develop an ESG strategy and documentation.

PARTNER

INTERDISCIPLINARY PROGRAM

– created by influential researchers and practitioners from academia, consultancy, strategic advisory
