

Registration for subjects

Exchange

During specified stage of semester declaration there will be possibility of using the exchange – changing places between groups of the subject. Exchange is active for subjects, which have at least two exercise groups of one kind. Only students subscribed to subject can take advantage from this opportunity.

Exchange will take place on-line and in case of free places in the groups, the applications will be carried out on an ongoing basis. In case of lack of possibility to resolve the application, it will be waiting until the moment the change option will be possible.

Applications, which will not be carried out during the phase, will be deleted after its closing and students who submitted the applications will be left in the groups in which they were when submitting the application for exchange.

In case of subjects that have:

- only one form of classes (i.e. lecture) – exchange will be possible with other groups (it will be change of the lecturer, time of classes or both);
- two forms of classes (i.e. lecture and exercise) exchange will be possible:
 - either within the subgroup of the parent group (change of exercise group only and staying with the same lecture group),
 - or within the parent group with mandatory change of the subgroup (change between lectures, which forces also changing of the exercise group to one connected to chosen lecture).

If there are several applications within the same subject, the earliest of those with free places will be processed. The remaining applications will be deleted.

In the event that several people would wish to exchange and join a given group, applications will be processed according to the order of their submission. The first will be realized those submitted the earliest.

The exchange can only be used for subjects for which the student is subscribed to (selected in ongoing or earlier phases).

The list of subjects for which the student is subscribe is available in the **Cart**. Those subject to the exchange will have an arrow next to the cart icon:

The group to which student is currently submitted will also be visible:

Submit exchange wish									
Group	Registered	Lower limit ①	Upper limit	Requests ①	Teacher	Group description	Time	Dedications

In any moment you can again choose the group you want to apply for exchange to, but you should remember that new applications will have later date and will be realized after the applications submitted earlier by other students.

If the applications were not processed during the exchange, they will be deleted after the end of the phase, and the student will remain enrolled in the group where he/she was submitting the request.

Subjects, which will be left in **Cart** after the end of stage/phase and the exchange during it, will be mandatory for realization in upcoming semester. There will be no possibility to unsubscribe from then in next stages of semester declaration.
