

Would you like ...

- to work on an empirical project together with foreign students?
- to gain experience in data analysis?
- to take your first or further steps in Stata?
- to explore Berlin and Warsaw?

Apply for the workshop co-organized by SGH and HWR! You will participate in the visit in:

Berlin¹: 24.02. ²– 27.02.2026² **AND** Warsaw³: 09.03. – 11.03.2026

Conditions:

- You are going to participate in **both**⁴ the Berlin and Warsaw sessions which will consist in tutorial and the (supported) work on a project. Examples of topics that the project might concern include “the influence of VAT in tourism on the popularity of particular destinations” or “the influence of selected regulations on the tax income structure”.
- If you have other courses scheduled in those dates you will be provided with a justification of your absence.
- Full travelling costs will be covered for a group of selected candidates (we will inform all the applicants about details promptly after the submission deadline).
- You need to be a student of SGH, speak fluent English, be interested in data modelling and have basic knowledge of econometrics⁵. Master students will be preferred, however the undergraduate students of the last semesters might be accepted too. We particularly encourage students whose major is related with finance, however subject to availability other interested students will be accepted too.

Apply by 14.12.2025 to:

Bartosz Witkowski⁶
bwitko@sgh.waw.pl

Wojciech Stiller⁷
wojciech.stiller@hwr-berlin.de

with your transcript of records & short description of your motivation.⁸ In case of any questions, feel free to ask by e-mail.

¹ Badensche Str. 52, 10825 Berlin

² The 24th of February is the traveling day, the workshop will start on the 25th of February in the morning. However, you will be asked to prepare the data before the workshop starts.

³ al. Niepodległości 162, 02-554 Warszawa

⁴ It is not possible to participate in just one of the workshops.

⁵ You are not required to have deep knowledge of econometrics methods as the workshop is not primarily designed for the students of quantitative methods. However, you must know the basics of linear regression, OLS estimation and validation.

⁶ For SGH Students

⁷ For HWR Master Students

⁸ You must be allowed to travel to Germany – please make sure about this if you are not an EU citizen.
