EUROQOL
REGIONAL MEETING

Central & Eastern
Europe

1st EuroQol Central and Eastern Europe Regional Meeting

25 - 26 May 2026, Warsaw, Poland

SGH Warsaw School of Economics
Building C, Hall I (Aula I)
Al. Niepodległości 128, Warszawa

CONFERENCE PROGRAM

(shortened version: 2026-04-13)

Day 1 (Monday, 25th May 2026)

11:00 - 11:30 – Openings

	11:30 - 12:30 - Session 1: Educational session 1.
1.	Introduction to EuroQol and EuroQol instruments
2.	EuroQol instruments in pediatric populations (EQ-5D-Y-3L, EQ-5D-Y-5L, EQ-TIPS)

	13:30 - 15:00 - Session 2: Educational session 2.
1.	PROMs in health system applications
2.	The EuroQol instruments in development: the EQ-HWB-9
3.	The EuroQol instruments in development: the Bolt-on Toolbox

	15:15 – 17:00 - Session 3: Valuation studies
1.	Valuation of EQ-5D instruments
2.	EQ-5D-3L valuation study with crosswalk to EQ-5D-5L in Georgia: first national value set and population norms
3.	A Czech EQ-5D-3L value set based on EQ VAS ratings for experienced health states: results from the SHARE population survey
4.	Polish experience with EQ-5D valuation studies
5.	Valuation of states better than full health

Day 2 (Tuesday, 26th May 2026)

	9:00 – 10:30 – Session 4: EQ-5D population norms studies
1.	First EQ-5D-5L population norms for Estonia
2.	First EQ-5D-5L Population Norms for Croatia: Regional Inequalities in HRQoL and the Role of Health Literacy
3.	EQ-5D-5L Bulgarian population norms
4.	EQ-5D-5L in Pharmacy-Based Chronic Disease Management: Real-World Data from Bulgaria Benchmarked Against National Population Norms
5.	Machine learning for EQ-5D index estimation and analysis of large population data

	10:45 – 12:15 – Session 5: New Instruments: EQ-HWB-9, Bolt-on Toolbox, & EQ-5D-Y
1.	Content validity of new experimental EuroQol instruments in Hungarian patients with genetic skin diseases
2.	Validating the EQ-HWB-9 in long-term care recipients and carers: a qualitative study from Slovenia
3.	Psychometric testing of the EQ-HWB-9 in the Hungarian adult general population
4.	Testing content validity and acceptability of the respiratory bolt-on in Kazakhstan: preliminary results
5.	The quality of life of pediatric patients suffering from inflammatory bowel diseases in correlation to their parents' perspective

	13:15 – 14:45 – Session 6: EQ-5D in registries & long-term monitoring
1.	Scoping review of EQ-5D research and data sources in Estonia
2.	First exploratory analysis of EQ-5D data in Estonian Biobank
3.	National implementation of an electronic patient-reported outcome measurement infrastructure in Slovenia
4.	A Feasibility Pilot Study of EQ-5D Use in Chronic Disease Management in Primary Care
5.	Implementing EQ-5D traumatic brain injury registries in Armenia, Georgia and Moldova: methodological lessons and future directions for valuation research

	15:00 – 16:30 – Session 7: EQ-5D in clinical applications
1.	Linking EQ-5D-5L and Stated Preference Mortality Risk Valuation Using a Hybrid Choice Framework
2.	Age, gender, region of permanent address, and EQ-5D-5L as predictors of health: The case of the National Arthroplasty Registry of Slovenia
3.	Social Inequalities in Health-Related Quality of Life Among Older Patients Hospitalised with Heart Failure: Evidence from EQ-5D-5L
4.	Peripheral Artery Disease and Reduced Health Utility After TIA and Mild Stroke: An Exploratory Mediation Study
5.	Right ventricular dysfunction as a predictor of impaired quality of life at 12 months after myocardial revascularization in patients with ischemic heart failure
6.	Health-related quality of life assessed by EQ-5D following contemporary valve interventions: a single-center cohort analysis

16:30 – 16:45 – Closing & goodbyes
